

ABB Distribution Box Series

Overview

ABB, a global leader in electrification products, offers a diverse range of distribution boxes engineered for reliability, safety, scalability, and smart integration. These units are designed to meet the demands of residential, commercial, and industrial applications. No matter how harsh the environment is, there is always a proper enclosure for your needs. Thanks to protection ratings and high quality materials (from 65 x 65 mm up to 361 x 254 mm) plus 3 different cover heights are available. ABB's enclosures offer a first-class quality assortment of enclosures and accessories wherever electrical energy needs to be distributed, metered and controlled from the main distribution boards via the sub distribution boards to the smallest consumer unit for final distribution. They are available. Modular switchboard BEF402216 from ABB, designed for installation, for 16 (2x8) circuit breakers with transparent door. A small gesture, but a lot of value.
