

APC patch cord fiber optic

Overview

Our fiber optic patch cables are made with Corning's™ SMF-28™ Ultra Fiber which has a APC or "Ultra Physical Contact" polish on the fiber optic connector endfaces. This polish results in a highly radius domed endface surface that optimizes physical contact between the mated fiber cores. Executive Summary: With data center traffic doubling every three years and enterprise networks pushing toward 400G and 800G speeds, choosing the wrong fiber optic patch cable does more than create a bad connection—it creates a cascading performance bottleneck that haunts your operations team for. Get low-loss fiber patch cables & cords with various connector options that support fiber optic cabling up to 400G. Guaranteed. Corning offers the most complete line of connectors and factory-terminated cables, from single-fiber cords to high-fiber-count cable assemblies. Aesthetic White Design: Fiber patch cable blends seamlessly with white home equipment and decor. Professional-grade LSZH white jacket resists. Features an SC/APC connector on one end of the cable and a SC/APC connector on the other end to help you build out your GPON network.
