

Anti-sway angle iron bracket for cable trays

Overview

Angle iron with lengthwise/longitudinal slots 7x30mm on one side for universal support. Can be used to support cable trays, cable ladders and electrical installations.

75mm Premier Stand Off Brackets (HDG) The 75mm Premier stand off bracket is designed for securely spacing cable trays up to 75mm wide from wall or surface mounts. Edges and bolt holes are not rounded or otherwise prepared. These fittings are used in conjunction with cable trays to support cables in ventilation holes, assist with directional change of piping systems, and aid cable channelling around obstacles. There are several different types of cable tray accessories, which are available in heavy-duty, medium-duty. Cablofil's Wiremesh Cable Tray concept is based on performance, safety, and economy. These three qualities make the Cablofil Wiremesh Cable Tray system preferred by installers.

TOLCO seismic cable bracing systems are ideal for projects with extended drop lengths or have limited space for seismic bracing. Cable bracing is required when coupled with vibration isolation. The B-Line series seismic bracing cable kit system is up to 50% faster to install over traditional cable. At City Electric Supply, we provide a versatile selection of angle brackets designed to offer strong, durable, and reliable mounting solutions for electrical, mechanical, and construction applications.

Article Content
