

# Can PVC cable trays be used as cable ducts

## Overview

When it comes to managing and protecting cables in various environments, both cable trays and cable ducts serve as essential components. However, they are not interchangeable. Each system has unique characteristics that make it more suitable for specific applications. I've been there, and the answer isn't always simple. The best. The PVC plastic cable trays produced by Canalplast have the advantage of being extremely versatile, since they can be installed on the wall, floor or hanging. The text used is for pipe clamps) UNIDUCTS products are non-flame propagating, combustion proof with good. Salzer PVC FRLS Cable Ducts efficiently carries and protects wires and cables, which are manufactured from specially compounded, low smoke, flame retarded and high impact rigid polyvinyl chloride (RPVC) resin. We modified RPVC wiring duct formulations and used low doses of plasticizer and. Cable duct vs cable tray: trays offer less protection and require fire-resistant cables for exposure to environmental hazards. Cable trays are typically used to support.
