

Connector SMA905 Fiber Optic Base Female

Overview

Made of stainless steel, it provides excellent wear resistance, corrosion resistance and high-precision docking, ensuring stable signal transmission and long connection life. Interface standard: SMA905 to SMA Female (standard, perfectly adaptable to most bare optical. SMA905 connectors, which are most commonly used with multimode fibers, have a stainless steel ferrule design that is ideally suited for large core fibers. Thorlabs stocks a complete selection of SMA905 connector sizes to accommodate our full line of large core fibers, ranging from $\text{\O}125 \mu\text{m}$ to $\text{\O}1580$. Amphenol FOP's 905 SMA Connectors Series is engineered for critical medical applications, offering high-performance fiber optic connections with precision and durability. 1000um Amphenol MM 905 SMA Connector, Stainless Steel Body, Hex Nut and Ferrule with a 1000um (+15 / .
