

# Distribution box 24 green slots

## Overview

This outdoor 24 ports fiber distribution box provides a protected termination point for feeder cable to connect with drop cable in FTTH and FTTx communication networks. It integrates optical fibre splicing, splitting, distribution, storage and cable connection in the wall mounting. This lockable distribution box by Delock can be used for wall mounting and serves as a protective housing for optical cables and couplings. The distribution box can accommodate up to 24 SC Simplex or LC Duplex couplings. Thanks to the status indicator, you have an overview of a large number of signals. The integrated splice tray enables clean routing of the individual fibers for. Various versions of distribution boxes, a large selection of materials, voltage ranges, rated currents and IP protection types / protection classes for indoor and outdoor use, as well as a wide range of accessories and tools such as WAGO plug-in terminals, crimping tools, cable ties, wire end. AZE's Outdoor Fiber Optic Distribution Box is applicable in FTTH project and suitable for building's outer walls application; They can distribute cables after installing splitters and also can draw out room fiber optic cables by direct or cross-connections.
