

# Does Vietnam have fiber optic access to routers

## Overview

2% of fixed broadband households in Vietnam were connected via fiber-optic FTTH, with universal fiber access targeted by 2025 under the Digital Infrastructure Strategy. 8% of the territory, with about 168.5 million mobile subscriptions (roughly 170% of Vietnam's digital transformation tells a remarkable story—from a country once infamous for sluggish internet speeds to achieving median broadband speeds of 105 Mbps that rival many developed nations. For digital nomads arriving in Ho Chi Minh City's bustling tech districts or Hanoi's emerging. Home Sociocultural Education For the first time, Vietnam has high-speed broadband technology. On May 31, Nokia Corporation announced a cooperation program with Vietnam Posts and Telecommunications Group (VNPT) to deploy the first 5 Gigabit per second (10 Gb/s) fiber optic broadband infrastructure. The Internet in Vietnam is growing rapidly and plays a pivotal role in the country's broader digital transformation strategy. With high smartphone penetration and mobile -first internet usage, Vietnam is embracing digital technologies not just for daily use but also to drive government reform. If you're arriving in Hanoi or Ho Chi Minh City and need instant connectivity, rent a portable MiFi router from XOXO WiFi or wifio—they support LTE Bands 3, 8, and 41, offer unlimited data plans starting at €3.30/day, and provide airport pickup 13.
