

# Dual 18-circuit distribution box

## Overview

This distribution board is designed to accommodate up to 18 circuit breakers, providing a secure and organized solution for distributing power within your electrical system. With its adjustable din-rail and ultra-large space box for easy wiring, the HT-18 is used in low voltage distribution networks for power supplying in residential and commercial buildings. Discover our 18 Way Distribution Box HT-18 IP65 - a robust and weatherproof electrical enclosure for organizing. Find reliable power distribution solutions for M18 batteries. Browse options with built-in fuse boxes, dimming controls, and portable designs for various needs. Ideal for use as the main unit on small vehicles or for accessory circuits and overflow circuits from your main power distribution module (PDM), the compact HWB18 Hard-Wired Waterproof DC Power Distribution Box accepts MINI® fuses, MINI® circuit breakers, MCASE™ fuses (adapter required; sold. CJDB series distribution box, also called distribution board, is mainly composed of the casing and modular terminal apparatus, suitable for ac 50/60Hz, and rated voltage of 230V. The load current is less than 100A single-phase three-wire terminal of the circuit. With 18 modular spaces housed within an IP40.
