

Finnish Mechanical Power Distribution Box Company

Overview

Epec delivers intelligent control systems, electrification solutions, autonomous/assistive technologies, connectivity/telematics and sw engineering for mobile machinery and commercial vehicles. We work with OEMs worldwide to build safer, more efficient, and more sustainable. Our expert services cover pre-design, project management, installations, as well as maintenance and spare parts services — ensuring the long service life of your systems. Our products are designed and manufactured in Finland for the demanding conditions of the North. With our Nordic roots and headquartered in Finland since 1966, we create robust and industry-leading products and solutions, protecting power distributions, control systems, and. Our flexible distribution boxes enable reliable, decentralised signal transmission and power transmission up to protection class IP67 - wherever passive distribution boxes are required. High-quality materials and robust product designs ensure a reliable connection, signal transmission and power. Since 1973, Polarputki Oy has provided the Finnish mechanical engineering, shipbuilding, power plant and steel sectors with products and services supplementing Finnish steel production.
