

# GPON optical module Huawei

## Overview

Huawei compatible OM5270S-D2SW is XGSPON & GPON OLT SFP transceiver, operating over Single-Mode Fiber (MMF) optical cable. It has minimum guaranteed optical budget of 34dB for XGPON and 35dB for GPON technology, with in most cases is enough to reach 20km distance. Otherwise, the optical module may be burnt. 1 Gbit/s and downlink service bandwidth is 2. Return Material Authorization (RMA) Process Standard Hardware Warranty Policy: Original new sealed ZTE product: 1 Year The Support Contacts: If your ZTE products failed, you must contact your sales. The GPON ONU Stick transceiver module is designed with a simpler and more cost-optimised architecture that ultimately reduces the number of devices deployed and managed in a network. However, distance is just. Huawei GPON OLT C++ SFP is inserted in service board like GPFD GPBD GPBH GPHF etc and provides one or more transceiver module slot. It provides a full range of optical transceivers, such as SFP+ (SFP Plus) transceiver, X2 transceiver, XENPAK transceiver, XFP transceiver, SFP (Mini GBIC). Huawei GPON boards include GPON, XG-PON, XGS-PON, XG-PON&GPON Combo, XGS-PON&GPON Combo interface board, so there are these kinds of GPON optical modules corresponding.
