

High-density small busbar waterproof type in stock

Overview

The 4 position sealed busbar offers excellent resistance to moisture, dust, and corrosion, making it ideal for harsh marine and industrial environments. Its compact design fits tight spaces while providing clean, organized wiring. Explore a wide range of waterproof power distribution blocks for marine, automotive, solar, and RV applications. Route electricity within switchboards and battery banks; also known as bus bars Create a convenient central grounding point by connecting multiple ground wires In cabinets and other tight spaces, ground multiple wires at one convenient spot Our most conductive metal for electrical applications—all. With 4 positions for Deutsch DTP connectors, this sealed busbar delivers high-current capacity with protected terminations. Designers choose ROLINX busbars for the quality and reliability. Plastic busbars are engineered from a strong polymer. Below are the types. ABB WavePro-R Cast Resin Busway is a high performance low-voltage busbar system. It's up to 5000A rated current and IP68 protection level. Insulation material is halogen free.
