

# How much does a long-span cable tray cost

## Overview

Steel wireway systems typically fall in the \$8-20 per foot range, while aluminum variants command premiums of \$12-30 per linear foot due to corrosion resistance properties. Fiberglass cable trays, favored for harsh industrial environments, carry the highest material costs at. Ask ten buyers about cable tray cost, and most of them will point to the rate per meter. That number matters, but it's rarely the one that decides whether a project stays within budget. The real cost shows up later, during installation, during upgrades, and during the first few years of operation. Cable tray pricing depends on materials, coatings, size, supplier margins, and order quantity —plus hidden costs like shipping and installation. This guide breaks down everything buyers need to know, from price trends to cost-saving tips. But the actual price is the cash outlay to the workers to assemble the parts. These trays also provide free air flow to prevent overheating, which could damage the cable.
