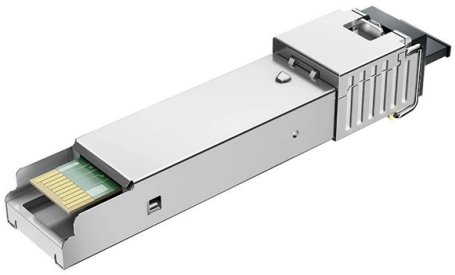
How much does outdoor fiber optic cable cost per kilometer



Overview

A practical frame is $40,000–$350,000 per km, with a common mid-range around $120,000–$180,000 per km for standard single-mode fibre in ducted runs. Per-unit considerations include $/km for total project, $/duct meter for ducting work, and $/splice for termination. The price of fiber optic cabling depends on cable type, length, installation method, and surrounding materials. Typical costs hinge on fiber count, indoor versus outdoor use, and whether trenching, splicing, or termination is required. In straightforward urban corridors with existing ducts or minimal permitting hurdles, total per-km costs often land near the low end. Commercial building installations with 100-200 network drops generally range from $15,000 to $30,000. 50 per meter, depending on several variables. Here's a general pricing reference: Cable TypePrice Range (USD/meter)Simplex / Duplex Indoor Cable$0. A narrow, conservative estimate accounts for basic aerial installs in suburban areas, while wide urban corridors.
