

Huawei OLT optical module C

Overview

Huawei compatible OM5270S-D2SW is XGSPON & GPON OLT SFP transceiver, operating over Single-Mode Fiber (MMF) optical cable. It has minimum guaranteed optical budget of 34dB for XGPON and 35dB for GPON technology, with in most cases is enough to reach 20km distance. Huawei OptiXaccess EA5801E is a box-shaped Optical Line Terminal (OLT) with Gigabit Passive Optical Network (GPON) access, supporting both Passive Optical LAN (POL) and Fiber To The Home (FTTH) solutions. It carries all services over a single fiber network, considerably simplifying network. A GPON optical module is connected to one SC optical fiber to provide GPON access service. Return Material Authorization (RMA) Process Standard Hardware Warranty Policy: Original new sealed ZTE product: 1 Year The Support Contacts: If your ZTE products failed, you must contact your sales. The Class C+ standard supports 32dB optical link loss, while Huawei's MA5800 series achieves an ultra-wide budget of 33dB with APD detector technology. Interface & Physical Features (Interface & Physical Features) IV. Equipment Compatibility (Device. Huawei GPON OLT C++ SFP is inserted in service board like GPFD GPBD GPBH GPHF etc and provides one or more transceiver module slot.
