

IPM switch PoE

Overview

IPM-90-550 is a single-port gigabit PoE midspan compliant with IEEE 802.3af/at/bt standards (90W) with a built-in LCD display. Placed between a switch that does not have PoE power (or does not have a sufficient power budget) and network devices. The IPM-MANAGER-1600H series Ethernet L3 PoE Switch is equipped with 16* 10/100/1000Mbps adaptive RJ45 ports and 4*1000Mbps combo ports. Each RJ45 port supports MDI/MDIX and wire speed forwarding functions. It can as Power over Ethernet. To address this need, Planet Technology USA offers the IPM-8221, a revolutionary IP-based, 8-port switched power management device that will redefine how businesses manage their power distribution and network infrastructure. What Is Switched Power Management?

Switched Power Management represents standards PoE, PoE+, Hi PoE in 3 operating modes selectable from a handy menu. 3at PoE+ (up to 30W per Port) for powering attached IP phones, wireless access points, or other standards compliant.
