

# Inquiry about a 200G coherent optical module

## Overview

This CFP2 coherent optical module supports wavelengths from 1528 to 1567 nm and has a transmission capacity of up to 200 Gbps. With EDFA for transmission, point-to-point can reach 1000km. All 22dB ANSM -0955 Email: ChuThe CFP2-DCO-200G-D is CFP2 form factor coherent pluggable module compliant to the CFP MSA CFP2 Hardware Specification, based on DP-mQAM modulation, polarization diversity coherent Intradyne detection and advanced electronic link equalization. On the host side, the module can accommodate a variety. Extend optical reach to 2000km with integrated coherent DSP. CFP2-DCO merges packet and optical layers in a single pluggable module. Multiple 100G clients. The 200G Coherent CFP2 optical module, integrating coherent detection and high-performance DSP, enables higher spectral efficiency over limited fiber resources, making it a proven solution for metro, backbone, and data center interconnect (DCI) networks. The module also features DOM monitoring, allowing wavelength tuning. It was born to configure high-capacity.
