

# Intelligent Lighting Module Control Distribution Box

## Overview

The IX3212 Intelligent Xpansion™ power distribution module (PDM) expands CAN bus control networks by replacing existing relay and fuse boxes with more reliable solid-state switches that can directly drive work lights, wiper motors, cooling fans, directional DC motors and other high. The IX3212 Intelligent Xpansion™ power distribution module (PDM) expands CAN bus control networks by replacing existing relay and fuse boxes with more reliable solid-state switches that can directly drive work lights, wiper motors, cooling fans, directional DC motors and other high. Our range includes DALI2 and other cutting-edge protocols, ensuring seamless integration with your lighting infrastructure. With our advanced technology, you can effortlessly tailor your lighting environment to enhance comfort, energy efficiency, and aesthetics. With cable terminations only required for power and control circuits in the feed unit, Buscom delivers an adaptable and robust plug and play solution that allows for future lighting layout changes to be made quickly and efficiently, whilst drastically reducing the. Delta Controls' lighting solutions combine advanced hardware, human-centric controls, and IoT connectivity to deliver healthier, more responsive, and sustainable environments. Flexible Lighting Architectures Support for 0-10V analog dimming, DALI digital control, relay switching, and wireless. The Ex-Or CDH4U5-BDALI is a 4-channel programmable intelligent lighting control module with MLS Bus and DALI dimming. \*Note: refer to Technical Data section of the Installation. Lighting control modules are a new range of intelligent marshalling boxes and accessories offering a simple and easy to configure system with all the components necessary to distribute power, detector inputs and switch commands to the connected luminaires. Energy conservation and the resulting cost. The Lumenpulse Low-Voltage Control Box is the home of our new Lumengrid technology. Containing both a power supply and...

## Article Content

### LIGHTRAK LIGHTING CONTROL SYSTEM

With Lightrak, lighting control modules come pre-wired with tap-offs and pre-fitted with brackets, meaning the installation is as simple as snapping on, and plugging in.
