

LED Screen Timed Intelligent Power Distribution Box

Overview

The Time-Controlled Power Distribution Box for LED Screen (PRO-TIME) is an industrial-grade, highly integrated, and cost-effective power management solution designed for LED displays, factories, and industrial enterprises. We would be happy to answer your questions. Copyright © 2024 Shenzhen LED-Power Technology Co. Different batches of products may vary. The product will be continuously optimized and iterated during the production process, and the product specification. Multi-function card power distribution cabinet adopts "step-by-step delayed power on" to avoid the instantaneous impact of large loads on the power grid, effectively protect the electronic components of the display body and prolong the service life of the display, with the use of multi-function. In today's rapidly developing digital information, LED display screens have the advantages of high brightness, high definition, and rich colors. They have been widely used in advertising media, sports stadiums, stage performances, traffic control and many other fields. However, the normal operation. Shipping fee and delivery date to be negotiated. Chat with supplier now for more details.
