

Low-voltage distribution box model xm

Overview

XM type low-voltage distribution box is suitable for industrial and mining enterprises, residential communities and high-rise buildings. It is used for power distribution, lighting and metering in low-voltage distribution systems with AC 50Hz and rated working voltage not. The Low Voltage Distribution Box is a compact and reliable solution for secondary power distribution in industrial, commercial, and residential applications. Designed with a robust steel enclosure, it safely houses circuit breakers, fuses, and control devices to manage lighting, motor loads, and. Lighting/power control distribution boxes and meter boxes are available in universal, outdoor, and transparent-window models. Depending on user requirements, they can be installed either surface-mounted or flush-mounted, catering to customers' diverse needs. Both recess mounting and indoor.
