

# Mainline optical cable price

## Overview

A: The price varies significantly by type. On average, Single-mode (OS2) ranges from \$0. Factors like armor, jacket rating (LSZH), and raw material indices influence the final ex-factory. One supplier in your inbox promises \$0.05 a foot, while a domestic distributor is asking for ten times that. You search “how much does fiber optic cable cost” on Google, and get vague answers from five years ago. As someone who has spent the last decade on the production floors here at Wolontek, I. Buyers typically pay a range for fiber optic cable per foot depending on fiber type, jacket, and shielding, plus installation considerations. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. CRU provides comprehensive, accurate and up-to-date price assessments and research reports for bare optical fibre across various key regional markets, combined with insights into the factors and events affecting markets. B2B buyers should confirm application, quantity, quality standard, packaging, destination.
