

Norwegian overhead cable trays available in stock

Overview

The standard range is always available in stock, in several different materials and surface treatments, which means we can guarantee fast deliveries. In our modern, flexible machine park, we can also customize and produce exactly the wire trays needed for each unique project. Our cable tray systems are tailored to meet the needs of your project, ensuring easy installation and reliable support for your cables. Don't let standard. Cable trays are a type of cable management system used to support and organize electrical cables and wires in commercial, industrial, and residential settings. They are typically made of metal, such as steel or aluminum, and are designed to provide a safe and efficient way to route and protect. Networks Centre Norway supports data centre owners, operators, consultants, and installers with proven infrastructure components and practical delivery support.
