

Papua New Guinea power distribution box complete set of equipment

Overview

ZBW□ type prefabricated substation is a complete set of distribution equipment that combines high-voltage switchgear, distribution transformers, low-voltage switchgear, electric energy metering devices, power factor compensation devices, etc., in one or several boxes according to certain wiring. The GGJ-type low-voltage distribution reactive power compensation integrated cabinet is a new-generation outdoor distribution cabinet designed based on the principles of safety, economy, rationality, and reliability. It is suitable for urban and rural grid renovations, industrial and mining. We perform, specialized, design, install, and maintain electrical systems in PNG. Procurement, manufacturing, factory testing, project management, site supervision, installation, inspection, punch listing, cold and hot commissioning of the 66/11kV Power. LidsTech – LiDS Technology Company is a Smart technology company based in Port Moresby, Papua New Guinea.
