

Remote Control Optical Cable Pulling Machine

Overview

Find the best cable pulling robot with remote control, heavy-duty frame, and adjustable speed. Discover top-rated suppliers, compare prices, and click to explore verified options for your project needs. An optical cable pulling machine is a specialized tool used in telecommunications and infrastructure projects to safely and efficiently install fiber optic cables through conduits, ducts, and overhead lines. These machines reduce manual labor, minimize cable damage, and ensure consistent tension. Access job sites with ease using the Condux Open Style Fiber Optic Cable Puller Trailer. The open style has advantages in portability, accessibility and cost. On the job, gain easy access to all components with the open face design. The eCapstan is a quiet battery powered pulling fiber optic capstan that can be used all day on one charge.
