

Zambian Fiber Optic Temperature Sensor Factory

Overview

Vancouver-based Accelovant has deployed its proprietary fibre-optic temperature sensors at the Kansanshi copper and gold mine in Zambia. Kansanshi is one of the world's largest and most productive copper. Sensors installed in "smokestack scrubbers" dramatically reduce plant downtime, enabling processing at higher capacities and facilitating automated control North Vancouver, BC, April 14, 2023-- (T-Net)-- Accelovant, an innovative developer of fiber-optic sensing solutions for semiconductor. NORTH VANCOUVER, BC / ACCESSWIRE / April 13, 2023 / Accelovant, an innovative developer of fiber-optic sensing solutions for semiconductor, industrial, IoT, manufacturing, and power distribution markets, announced the deployment of its fiber-optic temperature sensors at Kansanshi Mining PLC, a. Sensors installed in "smokestack scrubbers" dramatically reduce plant downtime, enabling processing at higher capacities and facilitating automated control NORTH VANCOUVER, BC / ACCESSWIRE / April 13, 2023 / Accelovant, an innovative developer of fiber-optic sensing solutions for semiconductor.
